

BGM Foundation

BGM Institute of Agriculture, Animal Husbandry & Animal Life Sciences

Research • Innovation • Education • Skills • Technology Translation • Industry • Impact

A Unique Opportunity to Build India's Premier Industry-Oriented Research & Innovation Institution

About BGM Foundation

- BGM Foundation, a distinguished institution with a legacy of over 135 years, invites applications for the position of Founding Director General to establish and lead the BGM Institute of Agriculture, Animal Husbandry & Animal Life Sciences.
- The Institute is envisioned as a research-intensive, industry-oriented institution dedicated to advancing application-oriented research, innovation, technology development and higher education. Through strong partnerships with industry, government and academia, the Institute will translate scientific discoveries into technologies, products and practical solutions that enhance agricultural productivity, livestock performance, animal health, sustainability and economic value.

The Founding Director

- The Founding Director General will provide visionary leadership in establishing the Institute's strategic direction, research ecosystem, academic programmes, research infrastructure and technology demonstration facilities. The Director General will recruit and mentor outstanding faculty, scientists and researchers, develop national and international partnerships, secure competitive research funding, and position the Institute as a nationally respected and globally connected centre of excellence.
- The Institute seeks an accomplished scientific leader with a **PhD** in Agriculture, Animal Husbandry, Animal Life Sciences, Biotechnology, Agricultural Engineering, Dairy Technology, Food Technology or a closely related discipline. **Postdoctoral research experience and international academic or research exposure will be highly desirable.**
- The successful candidate should possess **at least 10-15 years of leadership experience** in universities, research institutions, government organisations or industry R&D, with a distinguished record of scientific research, innovation, institution building and multidisciplinary collaboration.
- Experience in securing major research funding from **industry, Government of India agencies, CSR initiatives and international funding organisations**, together with the ability to build strategic partnerships, develop high-performing research teams and translate research into impactful technologies and solutions, will be essential. Prior experience in establishing or transforming a research institution will be a distinct advantage.
- This is a unique opportunity to create a globally respected institution that integrates **research, innovation, education, technology translation and industry collaboration** to generate meaningful impact for agriculture, animal husbandry and animal life sciences

How to Apply

Interested candidates are invited to submit:

- Detailed Curriculum Vitae
- Cover Letter
- Statement of Vision for the Institute (Maximum Two Pages)

Application Deadline: 15/12/2026
